#### SENIOR OFFICERS

The Seniors find that they have an extra load on their shoulders because now they are the leaders of the school organizations and set the examples for the underclassmen... Now they realize that their success in studies, athletics, and leadership must be at the peak because there will be no "next year"... It is this year that marks the turning point for many... but the seniors will always look back on their high school days as a magic time of life that can never be again.

Two of the most important years are the Junior and the Senior years. This year the Juniors planned for the Junior & Senior banquet which honored the Seniors. They have also planned for their special graduating year which claims them as leaders, example-setters, and the hub of activity that the entire high school revolves around.

SOPHOMORES

#### SOPHOMORE OFFICERS

Some say that the Sophomore class is the least important, but they are a large class, and they are pushing ahead to prove it isn't true. They like to make people well aware of their presence. They went to Six Flags Over Texas, sponsored a successful Mexican supper and basketball game, and they are providing next year's classes with three cheerleaders.

One of the dark clouds of their year is the loss of their sponsor, Mrs. Horton, who will teach in grade school next year.

The freshmen entered high school 25-strong only to find that they were considered "lowly freshmen." But their first year of high school activities brough them great anticipation for future years as highly - esteemed upper-classmen.
