HAYS CONSOLIDATED INDEPENDENT SCHOOL DISTRICT

ANNUAL COMPREHENSIVE FINANCIAL REPORT FOR THE YEAR ENDED JUNE 30, 2022

TABLE OF CONTENTS

<u>Exhibit</u>		<u>Page</u>
INTRODUCTORY SECTION		
	Letter of Transmittal	i
	GFOA Certificate of Achievement for Excellence in Financial Reporting	vi
	Organizational Chart	vii
	List of Principal Officials	viii
	Certificate of Board	ix
FINANCIAL SECTION		
	Independent Auditor's Report	1
	Management's Discussion and Analysis	4
Basic Financial Statements		
Government-wide Statements:		
A-1	Statement of Net Position	10
B-1	Statement of Activities	11
Governmental Fund Financial Statements:		
C-1	Balance Sheet	13
C-2	Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position	15
C-3	Statement of Revenues, Expenditures, and Changes in Fund Balances	16
C-4	Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities	18
Proprietary Fund Financial Statements:		
D-1	Statement of Net Position – Proprietary Funds	19
D-2	Statement of Revenues, Expenses and Changes in Fund Net Position – Proprietary Funds	20
D-3	Statement of Cash Flows – Proprietary Funds	21
Fiduciary Fund Financial Statements:		
E-1	Statement of Fiduciary Net Position	22
E-2	Statement of Changes in Fiduciary Net Position	23
	Notes to the Financial Statements	24

Required Supplementary Information

G-1	Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual – General Fund	48
	Notes to Required Budgetary Schedule	49
G-2	Schedule of the District's Proportionate Share of the Net Pension Liability – Teacher Retirement System	50
G-3	Schedule of the District's Pension Contributions – Teacher Retirement System	52
G-4	Schedule of the District's Proportionate Share of the Net OPEB Liability – Teacher Retirement System	54
G-5	Schedule of the District's OPEB Contributions – Teacher Retirement System	56

Combining Statements

Nonmajor Governmental Funds:

H-1	Combining Balance Sheet	58
H-2	Combining Statement of Revenues, Expenditures, and Changes in Fund Balances	63

Internal Service Funds:

H-3	Combining Statement of Net Position	68
H-4	Combining Statement of Revenues, Expenses, and Changes in Fund Net Position	69
H-5	Combining Statement of Cash Flows	70

Required TEA Schedules

J-1	Schedule of Delinquent Taxes Receivable	71
J-4	Use of Funds Report – Select State Allotment Programs	73
J-5	Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual – National Breakfast and Lunch Program Fund	74
J-6	Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual – Debt Service Fund	75

STATISTICAL SECTION (UNAUDITED)

Table

1	Net Position by Component	76
2	Change in Net Position	78
3	Expenses, Program Revenues and Net (Expense) Revenue	80
4	Fund Balances of Governmental Funds	82
5	Changes in Fund Balances - Governmental Funds	84

November 14, 2022

Vanessa Petrea, President
Board of Trustees
Hays Consolidated Independent School District
21003 N IH 35
Kyle, TX 78640

Dear Mrs. Petrea and Members of the Board:

The Texas Education Code requires that all school districts file a set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants in accordance with generally accepted auditing standards (GAAS). Pursuant to the requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the Hays Consolidated Independent School District (the District or Hays CISD) for the twelve-month period ended June 30, 2022. The District's Business & Finance Department prepares the report. The District has been awarded the Certificate of Achievement for Excellence in Financial Reporting awarded to government entities by the Government Finance Officers Association (GFOA) for the 2020-2021 Annual Comprehensive Financial Report. The District feels the current Annual Comprehensive Financial Report continues to meet the requirements for this award, and we will again submit the report for review. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Annual Comprehensive Financial Report is presented in four sections: Introductory, Financial, Statistical and Federal Awards. The Introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The management's discussion and analysis in the Financial section provides an overview of the financial position and results of operations for the year. The Financial section also includes the auditors' report, the basic financial statements, including the Government Wide Financial Statements and the Governmental Fund Financial Statements, the combining schedules and required supplementary information. The Statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The Federal Awards section includes the schedule of federal awards, auditors' reports and the schedule of findings for both current and prior years.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. In order to provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed to protect the District's assets from loss, theft or misuse. Additionally, the internal control framework is designed to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable assurance rather than absolute assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the District have been audited by Pattillo, Brown & Hill, LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion and that the financial statements are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special need of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Federal Awards section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

The District and Its Services

Hays Consolidated Independent School District was formed on May 6, 1967, through the consolidation of Kyle Independent School District, Buda County-Line Independent School District and Wimberley Rural High School District. The Wimberley School District withdrew from the consolidation in September 1986 and created Wimberley Independent School District. The District comprises 212 square miles of land, or approximately half of the total area of Hays County, with small portions extending into Travis and Caldwell Counties. The District includes the cities of Kyle and Buda, both of which are located within Hays County on Interstate Highway 35 between Austin and San Marcos. The District also includes the cities of Hays, Uhland, Niederwald and Driftwood.

The District is governed by a seven member Board of Trustees (the Board). The Trustees serve three-year staggered terms with elections being held every year. Monthly meetings of the Board are posted and advertised as prescribed under state law so that the Board may fulfill its charge to the students, parents, staff, and taxpayers of the District. Special meetings or study sessions are scheduled as needed. The Board has final control over all school matters except as limited by state law.

The Board meets annually to set goals for the District. The goals are both long-term and short-term in an effort to focus resources and efforts on specific areas, as well as set high standards for the students and staff of the District. They are reviewed and revised by the Board periodically.

Mission Statement (adopted 08/29/2022)- The mission of Hays CISD is to educate, value, and nurture students through innovative and personalized educational experiences while celebrating our diversity.

Vision Statement (adopted 08/29/2022) - All Hays CISD learners will be:

- highly sought-after for college, career, or military
- prepared for life and responsible citizenship
- effective communicators and collaborators
- resourceful and creative problem solvers

Beliefs (adopted 08/29/2022)- We believe:

- Decision making is student-focused
- All students have the capacity to learn and be successful
- A safe and secure environment is essential
- Success is a shared investment that includes learners, educators, parents and the community
- In being an unrivaled employee-friendly organization
- The allocation of resources will support high quality learning
- High expectations lead to high achievement
- Open communication, transparency, and accountability build trust
- Success is dependent upon a commitment to lifelong learning
- Diverse and differentiated opportunities further learning
- Student success includes a well-rounded education that goes beyond standardized testing

Board and Superintendent Goals for 2022-2023 (adopted September 26, 2022)

Student Achievement Goal —Through attention to individual students’ needs, each campus will demonstrate continuous improvement by showing academic growth and student engagement including intervention and enrichment. The District will evaluate and address the needs of each student. Students will receive academic advising and shall utilize data, based upon aptitude, ability, and career inventory data to formulate their plan of study for high school credit beginning in the spring semester of their 5th grade year. Results from advising data will be shared with parents/guardians. Student academic performance, college and career readiness, character and power skills will be evaluated to ensure success.

School Safety & Security Goal — A safe environment must include secure facilities, staff and student training, and our adopted standard response protocol. The district will partner with local and state entities to assure preparedness. Specific areas addressed are physical and cybersecurity, data privacy, campus access, detecting and reporting possible threats, and local and global crisis. The district will be compliant with all local, state and, federal laws and regulations related to school safety and security. All exterior and interior doors will be locked and properly numbered. Emergency response updates will be communicated timely, as appropriate. We will maintain an environment of trust between adults and all students.

Board/Staff/Community Relations Goal—The District will cultivate a culture of positive engagement and public service requiring empathy, visibility, trust, and communication. Effective communication through all appropriate avenues is a priority, and staff will be offered training in these areas. Our district is committed to increasing customer service and client engagement both internally and externally. The Board will receive an annual update regarding proposed recommendations made to the Superintendent received from the Diversity Advisory Council regarding efforts to improve our diversity and inclusion initiatives to remove systemic obstacles for all students. The District will continue to provide the Board with timely calendar updates regarding district events, as appropriate.

The District provides a well-rounded program of public education for children from pre-kindergarten through grade twelve. In addition to basic instructional programs, the District offers special education, gifted and talented, Bilingual/ESL, intervention, college preparatory, and career and technical programs. The District is fully accredited by the Texas Education Agency (TEA).

Hays CISD operates fifteen elementary schools, six middle schools, three comprehensive high schools, one alternative education program high school, and one disciplinary alternative education program campus. The District’s 2022-23 enrollment for budget purposes was 22,877. Actual enrollment for 2022-2023 was 22,307 at PEIMS snapshot (October 31, 2022).

Economic Information

Hays County, created in 1848, is located in south central Texas. Hays is a populous suburban county in the Austin metropolitan area with a 2020 census population of 241,061 people and an estimated growth rate of approximately 3.15%, making it one of the fastest growing counties in United States. The major cities in the County are Buda, Kyle and San Marcos (county seat). The County is traversed by Interstate Highway 35, U.S. Highway 290, State Highways 21, 123, and State Highway 130, a commuter roadway on the outskirts of the County to relieve congestion on IH 35 extending from north of Georgetown, east of metropolitan Austin, to I-10 near Seguin.

The Hays Consolidated Independent School District (Hays CISD) covers land in Hays County once used primarily for ranching and recreation. Hays CISD is located in and around the cities of Buda & Kyle which is located within what has become known as the Austin/San Antonio Corridor along Interstate Highway 35. Austin and San Antonio are two anchors of a region which includes several million people. The County is diversified by tourism, education, agriculture, retail, healthcare including two major hospitals, and manufacturing. Residents in Hays CISD have easy access to higher education including the University of Texas, Texas State University, St. Edward's University and Austin Community College.

The District's population has grown to an estimated 127,606 in 2021-22, up from the 2010 census number of 67,874, making it one of the fastest growing school districts in Texas. Residential and retail development has steadily increased in the last ten years. New home sales continue to rise in the area with 3,533 "annual starts" and 2,345 "annual closings". Future lots for home sites in the District are estimated at 57,904, the most of any school district in central Texas.

Report Information

The Annual Comprehensive Financial Report is prepared in accordance with generally accepted accounting principles (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). All funds of the District are covered by this report. The District's financial policies address accounting and fiscal operations of the district, with an emphasis on asset, procurement, and budget management.

The District maintains budgetary controls, and the objective is to ensure compliance with legal provisions embodied in the annual budget approved by the District's Board. The annual expenditure budget serves as the foundation for the District's financial planning and control. Every school district in Texas is required, by law, to prepare and file a budget with the Texas Education Agency (TEA). The board legally adopts a budget for the General Fund, Debt Service Fund, and Child Nutrition Fund. Budgets for Special Revenue Funds (other than Child Nutrition) and Capital Projects Funds are prepared on a project basis, based on grant regulations or applicable bond ordinances.

Budgetary control (the level at which expenditures cannot legally exceed appropriations) is mandated at the functional category level within each fund. These functional categories are defined by TEA and identify the purpose of transactions. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year end unless specifically identified for rollover into the next fiscal year.

Long-Term Financial Planning

The District is operating under the fourth year of House Bill 3 (HB 3) for the 2022-23 school year. HB3 was a historic school finance bill passed by the 86th Texas Legislature in 2019. The intent of the bill was to provide more money for Texas classrooms, increase teacher compensation, reduce recapture and cut local property taxes for Texas taxpayers. The bill made major revisions to the school finance formulas; added and repealed several chapters of the Education Code; and revised, removed and created multiple allotments or programs.

Since the Texas Legislature meets every two years to approve education funding, school districts are unable to accurately predict what mandates or funding changes will be implemented over the long-term. The District has accumulated unassigned fund balance to prepare for uncertainties in future student enrollment growth, property values, and funding reductions.

The District's total 2022-23 original adopted budget is \$306,575,774, representing a \$24,443,448 (or a 11.59%) increase over the 2021-22 revised budget.

The 2022-2023 original adopted budget included funding for:

- additional teachers/staff to accommodate growth and program enhancements
- 7% across the board compensation increase for employees
- maintain a no cost increase employee health insurance contribution
- added an employee only life insurance policy (\$10,000)
- campus, curriculum and departmental needs district-wide

Acknowledgements

The preparation of this report could not have been accomplished without the efficient and dedicated efforts of the entire staff of the Business & Finance Department. We would like to express our sincere appreciation to all members of the departments and surrounding entities who assisted and contributed to the preparation of this report. We would also like to express appreciation to the Board of Trustees for their interest and support in the financial operations of the District. Finally, we would like to thank the residents of the District for their support of, and belief in, our public schools, and principals and teachers who provide the quality education for which the District has become known.

Respectfully submitted,

Dr. Eric Wright – Superintendent of Schools

Randall Rau – Chief Financial Officer

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hays Consolidated Independent School District (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Hays Consolidated Independent School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hays Consolidated Independent School District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hays Consolidated Independent School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter – Change in Accounting Principle

As described in the notes to the financial statements, in fiscal year 2022 the District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

OFFICE LOCATIONS

TEXAS | Waco | Temple | Hillsboro | Houston
NEW MEXICO | Albuquerque

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and OPEB information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hays Consolidated Independent School District's basic financial statements. The combining statements, required TEA schedules and the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements, required TEA schedules and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section, but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As Management of the Hays Consolidated Independent School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$3,831,435 (net position).
- The District's net position increased by \$27,591,097 during the current fiscal year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$47,203,005, which represents 22.1% of total fiscal year 2021-2022 General Fund expenditures. Including the \$12,124,185 of fund balance assigned for the 2021-22 budget, the total percentage is 27.8%.

The District has been a fast-growth district for over thirteen years. The District anticipates adding 5,430+ students over the next five years.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to the financial statements.

This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The statement of activities presents information showing how the District's net position changed during the year ended June 30, 2022. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District are designed to educate and benefit the children of the community. Functional codes for Texas school districts are uniform throughout the state. They include instruction and instructional-related services, instructional and school leadership, support services for students, administrative support services, non-student based support services, ancillary services, debt service and capital outlay for facilities and construction.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements provide more detailed information about the District's most significant funds and not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental* activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and Capital Projects Fund, as they are considered to be major funds. Data from the other individual governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Proprietary Funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. There are two proprietary fund types. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an Enterprise Fund for childcare operations.

The second type of proprietary fund is the *Internal Service Fund*. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District uses Internal Service Funds for printing services and a self-insurance fund.

Fiduciary Funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purpose. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and statement of changes in fiduciary net position.

These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the District's pension and OPEB plans.

Government-wide Overall Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$3,831,435 for the year ended June 30, 2022. The District's total net position increased \$27,591,097 from the prior year. The District's financial position has improved with an increase in capital assets. The overall financial status of the District is stable, however, the financial outlook for all Texas school districts is uncertain beyond the current biennium.

TABLE 1

Total deferred inflows of resources	72,044,730	51,304,524	-	-	72,044,730	51,304,524
Net position:						
Net investment in capital assets	10,682,615	7,679,973	-	-	10,682,615	7,679,973
Restricted	32,662,842	26,558,452	-	-	32,662,842	26,558,452
Unrestricted	(40,263,863)	(58,617,548)	749,841	619,461	(39,514,022)	(57,998,087)
Total net position	\$ 3,081,594	\$ (24,379,123)	\$ 749,841	\$ 619,461	\$ 3,831,435	\$ (23,759,662)

A portion of the District's net position reflects its investment in capital assets (e.g. land, buildings, furniture, and equipment) less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used (e.g. debt service). This surplus is not an indication that the District has significant resources available to meet financial obligations next year, but rather the result of having long-term commitments that are less than currently available resources.

Governmental activities. Program and general revenues for the current fiscal year totaled \$277,594,946 a 4.0% increase from the prior year. Expenses for the current fiscal year totaled \$250,134,229 which is a decrease of 1.0% from the prior year. The increase in governmental net position is primarily due to strong tax collections, state funding, and a significant decline in the District's net pension liability.

Key elements of the increase or decrease are shown in the following table:

**TABLE 2

Property taxes, including penalties and interest, increased 14.5% and accounted for 56.3% of total 2021-2022 revenues. This revenue increase was the result of additional property values related to new businesses and residential construction, and a corresponding reduction in state funding due to property tax increases. The District reduced its tax rate for operations from \$0.906 to \$0.872 for 2021-2022. The tax rate for debt service was also reduced for 2021-2022 from \$0.4977 to \$0.4877.

Business-type Activities. Revenues of the District's business-type activities represent \$1,708,691 from childcare operations at District campuses.

Financial Analysis of Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$152,515,884. A complete listing of fund balances at June 30, 2022, is shown in the following table:

<u>Fund Balances</u>	<u>At June 30, 2022</u>
General Fund, Assigned	\$ 12,124,185
General Fund, Non-spendable	5,490,008
General Fund, Unassigned	47,203,005
Food Service, Restricted & Non-spendable	6,431,042
Capital Projects, Restricted	49,151,180
Debt Service, Restricted	<u>32,116,464</u>
Total Fund Balances	\$ <u>152,515,884</u>

The General Fund decreased its total fund balance by \$6,937,679. The total fund balance of \$64,817,198 at June 30, 2022 represents a 9.7% decrease over the prior year. Expenditures were less than anticipated in all areas, especially in instruction and facilities maintenance and operations, which contributed to the overall increase in total fund balance. A portion of the remaining budget was due to purchases on order with \$988,687 of fund balance rolled over to 2022-2023.

The Debt Service Fund has a total fund balance of \$32,116,464, all of which is restricted for the payment of debt service. The increase in fund balance is a result of a growing property tax base, offset by a reduced debt service tax rate.

The Capital Projects Fund has a total fund balance of \$49,151,180, which represents funds remaining from current and prior year bond sales. These funds are restricted for the construction and renovation of school buildings and purchase of equipment and land. Fund balance in this fund increased by \$36,557,842 as a result of the issuance of Unlimited Tax School Building Bonds, Series 2021 in the amount of \$115,210,000, offset by significant capital expenditures.

General Fund Budgetary Highlights

The District's budgets have continually included budget reductions and revenue enhancements in an effort to maximize the use of existing resources and meet the needs of a fast-growth district. The ability to provide additional teachers and staff, maintain student-to-teacher ratios, support core operations, expand technology systems and maintain competitive salaries continues to be a challenge.

In recent years, the District has consistently moved toward the adoption of a balanced budget while maintaining its current maintenance and operations tax rate of \$1.04. In 2013-2014 and 2014-2015 the District adopted general fund deficit budgets of (\$1,933,100) and (\$466,444) respectively. The District adopted a balanced budget in 2015-2016, due in large part to the funding efforts of the 84th Legislature, strong property value growth, and additional budget cuts and revenue enhancements. Reduction of state funding due to the elimination of ASATR and property value growth saw the District's return to deficit operating budgets in 2016-2017, 2017-2018, 2018-2019, and 2019-2020. The 2016-2017 budgeted deficit was (\$1,828,618), the 2017-2018 original budget reflected a deficit of (\$3,417,041), the 2018-2019 adopted budget reflected a deficit of (\$5,987,344), the 2019-2020 adopted budget reflected a deficit of (\$1,908,173), the 2020-2021 adopted budget reflected a deficit of (\$2,529,396), the 2021-2022 adopted budget reflected a deficit of (\$4,720,822), and the 2022-2023 adopted budget reflected a deficit of (\$11,135,498) which is reflective of the funding challenges faced by school districts with the return to formula funding. These budgets enabled the district to maintain competitive wages, address student enrollment growth and staffing needs, and expand programs.

Over the course of the current fiscal year, actual expenditures were less than final budget amounts for the General Fund. Positive variances were widespread, primarily in the functional categories of instruction, maintenance, and facilities acquisition and construction.

Capital Assets and Debt Administration

Capital Assets. At the end of 2022, The District had invested \$529,640,791 in a broad range of capital assets, including land, construction in progress, buildings and improvements, furniture and equipment, and right to use assets. This amount represents a net increase (including depreciation, additions and deductions) of \$73,873,026 from last year. Total depreciation expense for the current fiscal year was \$18,004,325 charged proportionately to the various functions/programs of the District. Additional information on the District's capital assets can be found in Note II. F of this report.

Long-term Debt. At year-end, the District had \$566,913,240 in bonds payable outstanding. Additional information about the District's debt is presented in Note II. G of this report.

The District maintains a "Aaa" rating from Moody's and "AAA" by Fitch for general obligation debt by virtue of the guarantee of the Permanent School Fund from the State of Texas. Prior to the sale of bonds in September 2022, the District received a bond rating from Fitch Ratings of "AA" and Moody's of "Aa2".

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The District's 2022-23 enrollment for budget purposes was 22,877, an increase of 1,031 students or 4.72% from 2021-2022 budgeted enrollment of 21,846. This equates to a refined average daily attendance (ADA) of 21,431 (95% student attendance rate). Actual enrollment for 2022-23 was 22,307 at the PEIMS snapshot date (October 31, 2022).
- Net taxable value used for the 2023 budget is estimated at \$13,972,363,574, based on the Hays, Caldwell, and Travis County Appraisal District's (CADs) 2022 certified estimate of property values. This is an increase of \$3,559,767,438 (34.19%) over CADs certified values for 2021.
- 7% across the board compensation increase for employees
- Total monthly contribution of \$364 (\$4,368 annually) for the District's health insurance plan allowing the District to continue offering a medical plan that is \$0 cost for employee only coverage.
- Newly established employee only life insurance policy (\$10,000)
- Increase of 108 budgeted (FTE) positions over the prior year to accommodate for growth and program enhancements (67-elementary; 21 middle schools; 20 high schools).
- Campus and department budgets were budgeted based on the anticipated needs for the upcoming year.
- The District's 2022-23 total tax rate is \$1.3423 per \$100/valuation, with a Maintenance and Operations tax of \$.8546 and Interest and Sinking of \$0.4877. This represents a \$.0174 decrease from the 2021-22 tax rate and a total decrease of \$.1954 over the past four years.

The general operating budget increased \$11.3 million for 2022-23, a 5.28% increase in projected expenditures over the prior year. The largest increases in the budget were for a new elementary campus, additional teachers to address enrollment growth, and employee compensation. If budget estimates are realized, the District's General Fund balance is expected to decrease \$11.1 million by the close of 2022-23 before any one-time uses of fund balance. Additional information regarding the District's budget can be found at www.hayscisd.net.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Financial Services Department at (512) 268-2141, or log on to www.hayscisd.net.

HAYS CONSOLIDATED INDEPENDENT SCHOOL DISTRICT**EXHIBIT C-2****RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION**

JUNE 30, 2022

Total fund balances - governmental funds	\$ 152,515,884
Amounts reported for for governmental activities in the statement of net position are different because:	
1 Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	524,798,507
2 Some receivables are reported as deferred inflows of resources in the governmental funds balance sheet, but are recognized as a revenue in the statement of activities.	
Property taxes	2,729,261
3 Net position of the internal service fund is shown as part of the proprietary funds, but is reported as part of governmental activities on the statement of net position.	2,189,200
4 The following long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.	
General and certificates of obligation	(510,810,000)
Unamortized premium	(56,103,240)
Deferred loss on refunding	20,475,511
Leases	(807,015)
Compensated absences	(2,033,016)
5 Interest payable is not due and payable in the current period and, therefore, is not reported as a liability in the governmental funds.	(7,490,103)
6 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68.	
Net pension liability	(27,512,170)
Deferred outflows related to pensions	19,043,427
Deferred inflows related to pensions	(31,324,876)
7 Included in the items related to debt is the recognition of the District's proportionate share of the net other post-employment benefit (OPEB) liability required by GASB 75.	
Net OPEB liability	(58,543,267)
Deferred outflows related to OPEB	16,673,345
Deferred inflows related to OPEB	(40,719,854)
Net position of governmental activities	\$ <u>3,081,594</u>

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2022

Net change in fund balances - total governmental funds	\$ 35,791,398
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Additions to capital assets	87,179,360
Deletions to capital assets	(1,594,225)
Depreciation on capital assets	(17,609,701)
Some receivables are not considered available revenues and are reported as deferred inflows in the governmental funds.	
Property taxes	531,271
The District uses an internal service fund to charge the cost of self-insurance and printing to the appropriate functions in other funds. The net income of the internal service fund is reported as a part of governmental activities which increases net position.	
	1,224,126
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Principal repayment	35,149,152
Proceeds from bond issuance	(115,210,000)
Premium on bond issuance	(10,721,872)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Amortization of premium and deferred loss on refunding of bonds payable	5,300,273
Accrued interest payable	(931,837)
Change in compensated absences	4,534,503
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$4,516,605. Contributions made before the measurement date and during the previous fiscal year were expended and recorded as a reduction in net pension liability. This caused a decrease in net position totaling \$3,782,076. Finally, the proportionate share of pension expense on the plans as a whole had to be recorded. The net pension expense increased the change in net position by \$912,767. The net result is an increase in the change in net position.	
	1,647,296
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$1,107,145. Contributions made before the measurement date and during the previous fiscal year were expended and recorded as a reduction in net OPEB liability. This caused a decrease in net position totaling \$983,275. Finally, the proportionate share of OPEB expense on the plans as a whole had to be recorded. The net OPEB expense increased the change in net position by \$2,047,103. The net result is an increase in the change in net position.

HAYS CONSOLIDATED INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

This report includes those activities, organizations and functions related to the Hays Consolidated Independent School District (the "District"), which are controlled by or dependent upon the District's governing body, the Board of Trustees (the "Board"). The Board, a seven-member group, is the level of government having governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the District. Since the District receives funding from local, state and federal government sources, it must comply with the requirements of the entities providing those funds. However, the Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board ("GASB"), since Board members are elected by the public and have decision making authority. There are no component units included within the reporting entity.

The accounting policies of the District comply with the rules prescribed by the Texas Education Agency's ("TEA") Financial Accountability System Resource Guide. These accounting policies conform to generally accepted accounting principles applicable to state and local governments.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include state and federal program revenues, interest income, and property taxes. Delinquent property taxes at year end that are not collected within sixty days of year end are reported as deferred inflows of resources.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District reports the following major governmental funds:

The **General Fund** includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

The **Debt Service Fund** includes debt service taxes and other revenues collected to retire bond principal and to pay interest due. It is a budgeted fund.

The **Capital Projects Fund** includes the proceeds from the sale of bonds and other revenues to be used for authorized construction and other capital asset acquisitions.

The District has no major Enterprise funds.

Additionally, the District reports the following fund types:

Special Revenue Funds are governmental funds which include resources restricted, committed, or assigned for specific purposes by a grantor or the Board. Federally financed programs where unused balances are returned to the grantor at the close of specified project periods are accounted for in these funds. The District uses project accounting to maintain integrity for the various sources of funds.

Enterprise Funds are proprietary funds and are used to account for District activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities. The District's Enterprise Fund consists of the District-Wide Child Care Fund.

Internal Service Funds are proprietary funds and are used to account for the District's workers compensation insurance and the print shop.

The **Private Purpose Trust Fund** is a fiduciary trust fund and is used to account for the principal and income that benefit individuals in the form of scholarships and a training seminar for music instruction.

Custodial Funds are unbudgeted funds and are used to account for activities of student groups.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are interfund charges for workers compensation insurance and the print shop. Operating expenses include administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, Net Position/Fund Balance, Revenues and Expenditures/Expenses

Deposits and Investments

The District's cash and cash equivalents are considered as cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

Investments throughout the fiscal year consisted of investments in external local government investment pools. Local government securities are recognized at fair value and the external local government pools are recognized at amortized cost as permitted by relevant accounting standards. The District is entitled to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, certain Federal agency securities and other types of municipal bonds, fully collateralized repurchase agreements, commercial paper and local government investment pools. The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policy. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

Fair Value Measurements

The District complies with relevant accounting standards, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Ad Valorem Property Taxes

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Inventories

Inventories consist of expendable supplies held for consumption. Inventories are charged to expenditures when consumed. Supply inventory is recorded at cost using the FIFO method.

Federal food commodities inventory is stated at fair value and at year end is recorded as unearned revenue. Revenue is recognized at fair value when commodities are distributed to the schools.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are charged to expenditures when consumed.

Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, and furniture and equipment, are reported in the governmental activities column in the government-wide financial statements. The District has no infrastructure assets. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost if purchased or at acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Capital assets (other than land and construction in progress) are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	20-39
Vehicles	10
Furniture and equipment	5-15
Right to use - equipment	3-5
Right to use - buildings	30

Leases

The District is a lessee for a noncancellable lease of equipment. The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Accumulated Sick Leave Liability

The State of Texas (the "State") has created a minimum sick leave program consisting of five days of sick leave per year with no limit on accumulation and transferability among districts for every person regularly employed in Texas public schools. Each district's local board is required to establish a sick leave plan. Local school districts may provide additional sick leave beyond the State minimum. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. Such benefits are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Insurance

As of September 1, 2004, the District is no longer self-insured for its workers' compensation insurance. All outstanding claims prior to the switch are handled by the District and are accounted for in the Workers' Compensation Internal Service Fund.

The District also provides health care benefits to its employees under a health care insurance plan. The insurance is provided by a licensed insurer.

Defined-Benefit Pension Plan

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Deferred Outflows/Inflow of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has a deferred resource outflow for TRS. The item related to TRS represents the District's share of the unrecognized plan deferred outflow of resources which TRS uses in calculating the ending net pension liability and net OPEB liability. The District also has a deferred charge on bond refunding, which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of inflow, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District also recognizes their share of the unrecognized TRS plan deferred inflows of resources with TRS uses in calculating the ending net pension liability and net OPEB liability.

Net Position

Net position represents the difference between assets, deferred outflows (inflows) of resources and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond and grant proceeds) and unrestricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed:** This classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Board of Trustees is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.
- **Assigned:** This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. It is the District's policy for the Board of Trustees to approve all assignments by formal action. Unlike commitments, assignments generally only exist temporarily. An additional action does not normally have to be taken for the removal of an assignment.
- **Unassigned:** This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

Fund Balance Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Statement of Cash Flows

For purposes of the statement of cash flows for proprietary fund types, the District considers all liquid investments with original maturities of 90 days or less to be cash equivalents.

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Data Control Codes

The data control codes refer to the account code structure prescribed by the Texas Education Agency (the "Agency") in the *Financial Accountability System Resource Guide*. The Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide data base for policy development and funding plans.

Change in Accounting Principle

GASB Statement No. 87, Leases, was adopted effective July 1, 2021. The statement addresses accounting and financial reporting for lease contracts. Statement No. 87 establishes standards for recognizing and measuring assets, liabilities, deferred outflows of resources, deferred inflows of resources, and revenues and expenses related to leases in the basic financial statements, in addition to requiring more extensive note disclosures. The adoption of this standard did not result in a restatement of beginning fund balance or net position, but assets and liabilities were recognized, and more extensive note disclosures were required.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Deposits and Investments

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are preservation and safety of principal, liquidity and yield

The District is authorized to invest in the following investment instruments provided that they meet the guidelines established in the investment policy:

- Obligations of, or guaranteed by, governmental entities
- Certificates of deposit and share certificates
- Fully collateralized repurchase agreements
- Banker's acceptance
- Commercial paper
- Money market funds and no-load mutual funds
- Public funds investment pools

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with the District's agent approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. Therefore, the District is not exposed to custodial credit risk.

Under the depository contract, the District, at its own discretion, may invest funds in time deposits and certificates of deposit provided by the depository bank at interest rates approximating United States Treasury Bill rates.

The District's deposits with financial institutions at June 30, 2022 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name. The deposits were collateralized in accordance with Texas law and TEA maintains copies of all safekeeping receipts in the name of the District.

The following are investments held by the District at year-end:

Type	Fair Value	Percentage of Investments	Weighted Average Maturity (Days)	Rating
TexPool	\$ 46,874,920	29.4%	23	AAAm
Texas Range	20,673,628	13.0%	21	AAAmmf
Lone Star	91,831,082	57.6%	12	AAA
	<u>\$ 159,379,630</u>	<u>100.0%</u>		

Portfolio weighted average

16

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of returns, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposits issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivision of any state having been rated as to investment quality no less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies or on nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provision governing investments for the District are specified below:

Credit Risk: At June 30, 2022, investments were included in external local government investment pools in compliance with the District's investment policy.

Custodial Credit Risk – Investments: Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the District, and are held by either the counterparty or the counterparty's trust department or agent not in the District's name. At June 30, 2022, the District was not exposed to custodial credit risk.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investments in a single issuer. Information regarding investments in any one issuer that represents five percent or more of the District's total investments must be disclosed under GASB Statement No. 40, excluding investments issued or explicitly guaranteed by the U.S. Government. At June 30, 2022, the District was not exposed to concentration of credit risk.

Interest Rate Risk: As a means of minimizing risk of loss due to interest rate fluctuations, the investment policy requires that maturities for internally created pool fund groups will not exceed the dollar weighted average maturity limits. Maturities of any other individual investment owned by the District should not exceed three years from the time of purchase. The Board may specifically authorize a longer maturity for a given investment, within legal limits. The District considers the holdings in the external local government investment pools to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At June 30, 2022, the District was not exposed to significant interest rate risk.

B. Property Taxes

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code (the "Code") which established a county-wide appraisal district and an appraisal review board in each county in the State. The Hays Central Appraisal District (the "Appraisal District") is responsible for the recording and appraisal of all property in the District. Under the Code, the District's Board sets the tax rates on property and the Appraisal District's tax department provides tax collection services. The Appraisal District is required under the Code to assess property at 100% of its appraised value. Further, real property must be reappraised at least every four years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the Appraisal Review Board through various appeals and, if necessary, legal action.

Property taxes are levied as of October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, and penalties and interest that are ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period, including those property taxes expected to be collected during a 60-day period after the end of the District's fiscal year. The assessed value at January 1, 2021, upon which the October 2021 levy was based, was \$11,212,072,369. The District levied taxes based on a combined tax rate of \$1.3597 per \$100 of assessed valuation for local maintenance (general governmental services) and debt service.

C. Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully fund certain activities. The District also receives entitlements from the State through the School Foundation and Per Capita Programs. In addition, the District has entered into interlocal agreements with local governments in which the District is to be reimbursed for certain costs. These amounts are reported in the basic financial statements as Due from Other Governments and are summarized below as of June 30, 2022.

	General Fund	Debt Service Fund	Nonmajor Governmental Funds	Total
State entitlements	\$ 16,889,807	\$ 45,727	\$ -	\$ 16,935,534
Federal and state grants	-	-	4,831,757	4,831,757
Other	419,507	18,975	-	438,482
Totals	\$ 17,309,314	\$ 64,702	\$ 4,831,757	\$ 22,205,773

D. Interfund Receivables, Payables and Transfers

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds." The balances below resulted from the lag between the dates that 1) interfund goods and services are provided on reimbursable expenditures occur, and 2) transactions that are recorded in the accounting system, and 3) payments between funds are made.

The composition of interfund balances as of June 30, 2022 is as follows:

Due From Fund	Due To Fund	Amount
General fund	Nonmajor governmental	\$ 5,275,572
General fund	Custodial	5,324
Debt service fund	General fund	8,512
Capital projects	General fund	1,093
Nonmajor governmental	General fund	5,655
Nonmajor governmental	Custodial	1,451
Nonmajor internal service	Nonmajor governmental	11,589
Nonmajor internal service	General fund	1,497
Custodial	General fund	207,897
Total		<u>\$ 5,518,590</u>

E. Unearned Revenue

At June 30, 2022, unearned revenue in governmental funds consisted of the following:

	General Fund	Nonmajor Governmental Funds	Total
Federal and state grants	\$ 2,051,851	\$ 543,424	\$ 2,595,275
Prepaid food service accounts	-	214,854	214,854
Other	595,732	-	595,732
Totals	<u>\$ 2,647,583</u>	<u>\$ 758,278</u>	<u>\$ 3,405,861</u>

F. Capital Assets

Changes in the District's capital assets for the year ended June 30, 2022 are as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 19,345,068	\$ 81,509	\$ -	\$ 19,426,577
Construction in progress	4,882,657	79,767,883	(950,006)	83,700,534
Total capital assets, not being depreciated	<u>24,227,725</u>	<u>79,849,392</u>	<u>(950,006)</u>	<u>103,127,111</u>
Capital assets, being depreciated:				
Buildings and improvements	589,468,060	-	(470,153)	588,997,907
Furniture and equipment	41,910,020	7,329,968	(849,905)	48,390,083
Right to use - buildings	-	5,000,000	-	5,000,000
Right to use - equipment	-	1,301,454	-	1,301,454
Total capital assets, being depreciated	<u>631,378,080</u>	<u>13,631,422</u>	<u>(1,320,058)</u>	<u>643,689,444</u>
Less accumulated depreciation for:				
Buildings and improvements	(172,045,813)	(14,667,247)	130,733	(186,582,327)
Furniture and equipment	(27,792,227)	(2,669,824)	535,868	(29,926,183)
Right to use - buildings	-	(333,334)	-	(333,334)
Right to use - equipment	-	(333,920)	-	(333,920)
Total accumulated depreciation	<u>(199,838,040)</u>	<u>(18,004,325)</u>	<u>666,601</u>	<u>(217,175,764)</u>
Total governmental activities capital assets, net	<u>\$ 455,767,765</u>	<u>\$ 75,476,489</u>	<u>\$ (1,603,463)</u>	<u>\$ 529,640,791</u>

Depreciation expense was charged to functions/programs of the District as follows:

Governmental activities:	
Instruction	\$ 11,724,502
Instruction resources & media services	363,221
Curriculum development & instructional staff development	43,009
Instructional leadership	7,149
School leadership	961,085
Guidance, counseling and evaluation services	403,670
Health services	177,247
Student (pupil) transportation	1,314,981
Food services	294,359
Extracurricular activities	833,807
General administration	130,498
Plant maintenance & operations	1,143,784
Security & monitoring services	127,948
Data processing services	479,065
Total depreciation expense	<u>\$ 18,004,325</u>

G. Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2022:

	Beginning Balance	Additions	Retirements	Adjustments	Ending Balance	Due Within One Year
<i>Governmental activities:</i>						
General obligation bonds	\$ 430,475,000	\$ 115,210,000	\$(34,875,000)	\$ -	\$ 510,810,000	\$ 25,190,000
Premium on bonds	53,544,607	10,721,872	(8,163,239)	-	56,103,240	-
Compensated absences	6,567,519	609,520	(217,001)	(4,927,022)	2,033,016	508,254
Leases	1,301,454	-	(329,027)	-	972,427	355,242
Total long-term debt	<u>491,888,580</u>	<u>126,541,392</u>	<u>(43,584,267)</u>	<u>(4,927,022)</u>	<u>569,918,683</u>	<u>26,053,496</u>
Net pension liability	55,182,532	(23,064,034)	4,606,328	-	27,512,170	-
Net OPEB liability	57,023,834	2,704,542	1,185,109	-	58,543,267	-
Total pension and OPEB	<u>112,206,366</u>	<u>(20,359,492)</u>	<u>5,791,437</u>	<u>-</u>	<u>86,055,437</u>	<u>-</u>
Total long-term liabilities	<u>\$ 604,094,946</u>	<u>\$ 106,181,900</u>	<u>\$(37,792,830)</u>	<u>\$(4,927,022)</u>	<u>\$ 655,974,120</u>	<u>\$ 26,053,496</u>

H. Bonds Payable

Bonded debt consists of the following at June 30, 2022:

Series	Date of Issue	Original Amount	Matures Through	Interest Rate	Outstanding at 6/30/2022	Due Within One Year
2011 Refunding	10/28/2011	\$ 8,230,000	2023	4.00%	\$ 2,180,000	\$ 2,180,000
2012 Refunding	03/29/2012	8,310,000	2024	3.50% - 3.75%	2,425,000	-
2012A Refunding	11/15/2012	91,070,000	2024	2.37% - 5.00%	17,595,000	8,580,000
2013	05/16/2013	54,475,000	2024	2.00% - 5.00%	5,360,000	2,730,000
2014	08/27/2014	51,655,000	2025	2.00% - 5.00%	4,865,000	1,540,000
2015 Refunding	12/08/2015	8,505,000	2033	4.00%	8,505,000	-
2016 Refunding	06/22/2016	55,465,000	2038	4.00% - 5.00%	54,810,000	-
2017	08/09/2017	160,340,000	2042	2.00% - 5.00%	148,680,000	1,220,000
2017 Refunding	12/28/2017	25,460,000	2038	2.00% - 5.00%	20,015,000	815,000
2018A	09/13/2018	42,020,000	2042	3.00% - 5.00%	32,590,000	2,055,000
2018B	09/18/2018	29,925,000	2043	2.70% - 7.00%	17,835,000	-
2020A	10/29/2020	28,640,000	2026	2.00% - 3.00%	28,445,000	-
2020B	10/29/2020	70,035,000	2039	1.70% - 5.00%	68,960,000	-
2021	8/17/2021	115,210,000	2046	2.25% - 5.00%	98,545,000	6,070,000
Total		<u>\$ 749,340,000</u>			<u>\$ 510,810,000</u>	<u>\$ 25,190,000</u>

For the general obligation bonds, the District has pledged as collateral the proceeds of a continuing, direct annual tax levied against taxable property within the District without limitation as to rate. The Texas Education Code generally prohibits issuance of additional ad valorem tax bonds if the tax rate needed to pay aggregate principal and interest amounts of the District's tax bond indebtedness exceeds \$0.50 per \$100 of assessed valuation of taxable property within the District. The District's debt service rate for 2022 is \$0.4877.

The annual principal installments for each of the outstanding issues vary each year. As of June 30, 2022, the debt service requirements to maturity are as follows:

Year Ended June 30,	Principal	Interest	Total Requirements
2023	\$ 25,190,000	\$ 19,758,224	\$ 44,948,224
2024	32,870,000	19,072,848	51,942,848
2025	21,805,000	18,514,794	40,319,794
2026	20,930,000	17,608,344	38,538,344
2027	23,215,000	16,797,894	40,012,894
2028-2032	110,505,000	67,553,392	178,058,392
2033-2037	124,485,000	44,204,261	168,689,261
2038-2042	125,970,000	18,412,994	144,382,994
2043-2046	<u>25,840,000</u>	<u>1,371,800</u>	<u>27,211,800</u>
Totals	<u>\$ 510,810,000</u>	<u>\$ 223,294,551</u>	<u>\$ 734,104,551</u>

In the current and prior years, the District defeased certain outstanding general obligations bonds by placing the proceeds of the new bonds and additional payments from the District in an irrevocable trust to provide for the future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not included in the District's financial statements. As of June 30, 2022, outstanding bonds of \$107,380,000 are considered defeased.

During fiscal year 2022, the District issued Unlimited Tax School Building Bonds, Series 2021, in the amount of \$115,210,000. The bonds carry interest rates of 3-5% and mature in 2041.

The Series 2018B Bonds are variable interest bonds and will bear interest at a per annum rate of 2.70% through August 14, 2023. Thereafter, the bonds will bear interest at a rate or rates determined by the remarketing agent as provided in the bond order.

As of June 30, 2022, there were \$170,990,000 in general obligation bonds authorized by voters of the District, but unissued.

I. Compensated Absences

The District pays employees who have been employed in the District for a minimum of five years, for the number of unused local days equal to the number of unused State days accumulated, up to sixty days, upon resignation. Accumulated vacation days are not paid upon employees' separation from the District, but the District does have grandfathered balances of "old vacation" which are paid upon separation from the District at the daily rate in place at the time of termination. The liability is typically liquidated by the General Fund. A summary of changes in the accumulated sick leave and vacation leave liability follows:

	Sick Leave	Vacation Leave	Total
Balance, June 30, 2021	\$ 4,230,891	\$ 2,336,628	\$ 6,567,519
Additions - new entrants and salary increments	609,520	-	609,520
Deductions - payments to participants	(122,931)	(94,070)	(217,001)
Adjustments - inactive/terminated employees/policy change	<u>(3,013,186)</u>	<u>(1,913,836)</u>	<u>(4,927,022)</u>
Balance, June 30, 2022	<u>\$ 1,704,294</u>	<u>\$ 328,722</u>	<u>\$ 2,033,016</u>

J. Lease Payable

The District entered into 30-month to 48-month lease agreements as lessee for the right to use vehicles. The District is required to make monthly principal and interest payments of \$527 to \$1,362. The leases have interest rates of 0.2850% to 1.9290%.

The District entered into 48-month leases as Lessee for the right to use copiers. The District is required to make monthly principal and interest payments of \$26 to \$4,615. The leases have interest rates of 0.2850% to 0.4170%.

A summary of changes in governmental long-term lease payable for the year ended June 30, 2022, is as follows:

<u>Purpose of Lease</u>	<u>Interest Rate</u>	<u>Initial Year of Lease</u>	<u>Amount of Initial Lease Liability</u>	<u>Interest Current Year</u>	<u>Amounts Outstanding 06/30/22</u>	<u>Amounts Due Within One Year</u>
Right to Use:						
Vehicles	0.2850 - 1.9290%	2019	\$ 541,001	\$ 1,178	\$ 401,184	\$ 165,549
Copiers	0.2850 - 0.4170%	2020	\$ 760,453	<u>2,320</u>	<u>571,243</u>	<u>189,693</u>
Totals				<u>\$ 3,498</u>	<u>\$ 972,427</u>	<u>\$ 355,242</u>

Debt service requirements are as follows:

<u>Year Ending June 30,</u>	<u>Lease Payable</u>		<u>Total Requirements</u>
	<u>Principal</u>	<u>Interest</u>	
2023	\$ 355,242	\$ 3,360	\$ 9,516
2024	347,445	1,988	7,767
2025	247,519	760	2,520
2026	<u>22,221</u>	<u>76</u>	<u>1,260</u>
Total	<u>\$ 972,427</u>	<u>\$ 6,184</u>	<u>\$ 21,063</u>

K. Defined Benefit Pension Plan

Plan Description - The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position - Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.trs.texas.gov, by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided - TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

Contributions - Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	Contribution Rates	
	2021	2022
Member	7.7%	8.0%
Non-employer contributing entity (State)	7.5%	7.8%
Employers	7.5%	7.8%
Current fiscal year employer contributions		\$ 5,274,018
Current fiscal year member contributions		12,345,661
2021 measurement year NECE on-behalf contributions		8,260,884

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, and or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- All public schools, charter schools, and regional educational service centers must contribute 1.6 percent of the member's salary beginning in fiscal year 2021, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions - The total pension liability in the August 31, 2020 actuarial valuation was rolled forward to August 31, 2021 and was determined using the following actuarial assumptions:

Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-Term Expected Investment Rate of Return	7.25%
Inflation	2.30%
Salary Increases Including Inflation	3.05% to 9.05%
Payroll Growth Rate	3.00%
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2020.

Discount Rate - A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2021 (see page 53 of the TRS ACFR) are summarized below:

Asset Class ¹	Target Allocation ²	Long-Term Expected Geometric Real Rate of Return ³	Expected Contribution to Long-Term Portfolio Returns
Global Equity			
U.S.	18.00%	3.60%	0.94%
Non-U.S. Developed	13.00%	4.40%	0.83%
Emerging Markets	9.00%	4.60%	0.74%
Private Equity	14.00%	6.30%	1.36%
Stable Value			
Government Bonds	16.00%	-0.20%	0.01%
Absolute Return	0.00%	1.10%	0.00%
Stable Value Hedge Funds	5.00%	2.20%	0.12%
Real Return			
Real Estate	15.00%	4.50%	1.00%
Energy, Natural Resources and Commodities	6.00%	4.70%	0.35%
Commodities	0.00%	1.70%	0.00%
Risk Parity			
Risk Parity	8.00%	2.80%	0.28%
Leverage			
Cash	2.00%	-0.70%	-0.01%
Asset Allocation Leverage	-6.00%	-0.50%	0.03%
Inflation Expectation			2.20%
Volatility Drag ⁴			-0.95%
Expected Return	100.00%		6.90%

¹ Absolute Return includes Credit Sensitive Investments.

² Target allocations are based on the FY2021 policy model.

³ Capital Market Assumptions come from Aon Hewitt (as of 8/31/2021).

⁴ The volatility drag results from the conversion between arithmetic and geometric mean returns.

Discount Rate Sensitivity Analysis - The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the Net Pension Liability.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
District's proportionate share of net pension liability	\$ 60,118,457	\$ 27,512,170	\$ 1,058,573

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2022, the District reported a liability of \$27,512,170 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 27,512,170
State's proportionate share that is associated with the District	<u>49,297,411</u>
Total	<u>\$ 76,809,581</u>

The net pension liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021, the employer's proportion of the collective net pension liability was 0.1080329515% which was an increase of 0.0049996540% from its proportion measured as of August 31, 2020.

For the year ended June 30, 2022, the District's pension expense was \$3,066,394 and revenue of \$197,085 for support provided by the State.

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 46,041	\$ 1,936,879
Changes in actuarial assumptions	9,725,014	4,239,272
Difference between projected and actual investment earnings	-	23,068,597
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	4,755,767	2,080,128
Contributions paid to TRS subsequent to the measurement date	<u>4,516,605</u>	<u>-</u>
Total as of fiscal year-end	<u>\$ 19,043,427</u>	<u>\$ 31,324,876</u>

The contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ended June 30,	Pension Expense
2023	\$(2,162,577)
2024	(2,675,650)
2025	(5,094,678)
2026	(6,968,002)
2027	41,580
Thereafter	61,273

L. Defined Other Post-Employment Benefit Plan

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

	TRS-Care Monthly Premium Rates	
	Medicare	Non-Medicare
Retiree*	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree* and Children	468	408
Retiree and Family	1,020	999
* or surviving spouse		

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates	
	2021	2022
Active employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding Remitted by Employers	1.25%	1.25%
Current fiscal year employer contributions		\$ 1,308,147
Current fiscal year member contributions		1,009,116
2021 measurement year NECE on-behalf contributions		1,588,499

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$5,520,343 in fiscal year 2021 for consumer protections against medical and health care billing by certain out-of-network providers.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the Total OPEB liability to August 31, 2021.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the mortality projection scale MP-2018.

Additional Actuarial Methods and Assumptions

Valuation Date	August 31, 2020 rolled forward to August 31, 2021
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Discount Rate	1.95% as of August 31, 2021
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Payroll Growth Rate	3.00%
Projected Salary Increases	3.05% to 9.05%
Healthcare Trend Rates	4.25% to 9.00%
Election Rates	Normal Retirement: 65% participation prior to age 65 and 40% participation after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

Discount Rate. A single discount rate of 1.95% was used to measure the total OPEB liability. There was a decrease of .38 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2021 using the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.33%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (0.95%)	Discount Rate (1.95%)	1% Increase in Discount Rate (2.95%)
Proportionate share of net OPEB liability	\$70,616,669	\$58,543,267	\$49,041,106

Healthcare Cost Trend Rates Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed rate used.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Proportionate share of net OPEB liability	\$ 47,418,106	\$ 58,543,267	\$ 73,470,469

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At June 30, 2022, the District reported a liability of \$58,543,267 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 58,543,267
State's proportionate share that is associated with the District	<u>78,434,931</u>
Total	<u>\$ 136,978,198</u>

The Net OPEB Liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer’s proportion of the Net OPEB Liability was based on the employer’s contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021 the employer’s proportion of the collective Net OPEB Liability was 0.1517668779%, which was an increase of 0.0017614580% from its proportion measured as of August 31, 2020.

Changes Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 2.33 percent as of August 31, 2020 to 1.95 percent as of August 31, 2021. This change increased the Total OPEB Liability.

For the year ended June 30, 2022, the District recognized OPEB expense of \$3,958,676 and revenue of \$2,894,848 for support provided by the State.

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experiences	\$ 2,520,565	\$ 28,339,037
Changes in actuarial assumptions	6,484,354	12,380,817
Differences between projected and actual investment earnings	63,559	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	6,497,722	-
Contributions paid to OPEB subsequent to the measurement date	<u>1,107,145</u>	<u>-</u>
Total as of fiscal year-end	<u>\$ 16,673,345</u>	<u>\$ 40,719,854</u>

The contributions made subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the next fiscal year. The other net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For the Year Ended June 30,	OPEB Expense
2023	\$(5,074,954)
2024	(5,076,387)
2025	(5,075,995)
2026	(3,534,976)
2027	(1,448,712)
Thereafter	(4,942,630)

M. Negative Operating Grants and Contributions – Statement of Activities

Expense activity is required to be recorded by districts who are participants in cost-sharing pension and OPEB benefit plans with a special funding situation where non-employer contributing entities (NECE) also participate in contributions to the plans. TRS-retirement and TRS-care benefit plans are both cost-sharing plans with special funding situations. Therefore, on-behalf expense activity of the NECE must be recorded at the government-wide level of reporting on the Statement of Activities in accordance with GASB 68 and 75.

During the year under audit, the NECE expense was negative due to changes in actuarial assumptions within the TRS-care plan. The accrual for the proportionate share of that expense was a negative on-behalf revenue and negative on-behalf expense. This resulted in a decrease to revenue for operating grants and contributions on the Statement of Activities. According to guidance provided directly from GASB, this is the correct reporting.

Following are the effects on the Statement of Activities as a result of the negative on-behalf accruals recorded:

	Operating Grants and Contributions	Negative On-Behalf Accruals	Operating Grants and Contributions (excluding on- behalf accruals)
11-Instruction	\$ 11,721,510	\$ (1,867,473)	\$ 13,588,983
12-Instructional resources and media services	(20,321)	(29,221)	8,900
13-Curriculum and staff development	1,140,534	(26,977)	1,167,511
21-Instructional leadership	630,704	(49,793)	680,497
23-School leadership	14,963	(213,405)	228,368
31-Guidance, counseling, and evaluation services	973,237	(124,683)	1,097,920
32-Social work services	56,058	(5,243)	61,301
33-Health services	236,731	(38,210)	274,941
34-Student transportation	132,548	(128,534)	261,082
35-Food service	13,602,856	-	13,602,856
36-Extracurricular activities	(40,500)	(56,076)	15,576
41-General administration	(48,526)	(77,852)	29,326
51-Facilities maintenance and operations	4,254,468	(206,510)	4,460,978
52-Security and monitoring services	80,906	(557)	81,463
53-Data processing services	171,978	(58,689)	230,667
61-Community services	102,321	(11,625)	113,946
72-Interest on long-term debt	540,201	-	540,201
93-Payments for shared services arrangements	333,959	-	333,959
Total	\$ 33,883,627	\$ (2,894,848)	\$ 36,778,475

N. Medicare Part D – On-behalf Payments

The Medicare Prescription Drug, Improvement and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of those provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug expenditures for eligible TRS-Care participants. These on-behalf payments of \$663,877, \$646,042, and \$603,943 were recognized for the years ended June 30, 2022, 2021, and 2020, respectively, as equal revenues and expenditures.

The District recognizes as revenues and expenditures retiree drug subsidy reimbursements under the provisions of Medicare Part D made by the federal government to TRS on behalf of the District. For the year ended June 30, 2021, reimbursements of \$646,042 were received by TRS and allocated to the District.

O. Health Care Coverage

During the year ended June 30, 2022, employees of the District were covered by a health insurance plan (the "Plan"). The District paid premiums of \$400 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay for any amount above the District contribution. All premiums were paid to TRS acting on behalf of the licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

P. Risk Management

The District's risk management program includes coverages through third party insurance providers for property, automobile liability, school professional liability, crime, workers compensation and other miscellaneous bonds. During the year ended June 30, 2022, there were no significant reductions in insurance coverage from coverage in the prior year. Losses in excess of the various deductible levels are covered through traditional indemnity coverage for buildings and contents, and vehicle liability with various insurance firms. Settled claims have not exceeded insurance limits for the past three years.

Q. Commitments and Contingencies

The District participates in a number of federal financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of the Uniform Guidance for the year ended June 30, 2022, these programs are subject to financial and compliance audits. The amounts, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial. In September 2017, the District entered into a joint access and use agreement with the YMCA of Austin ("YMCA") whereas the District is entitled to use of a natatorium for thirty years in return for a \$5 million contribution that was used by the YMCA towards construction of said natatorium. Construction was completed in fiscal year 2020. The construction contribution will be expensed over the thirty years the District has access to the natatorium. As of June 30, 2022, \$4,666,666 is recorded as a prepaid item on the balance sheet.

As of June 30, 2022, the District is also committed under construction contracts with a remaining balance of \$53,084,036.

R. Subsequent Events

In August 2022, the District issued \$170,990,000 in Unlimited Tax School Building Bonds, Series 2022. These bonds have interest rates ranging from 4.00% to 5.00% and will mature in August 2047. The bonds will be used to fund the construction and rehabilitation of school buildings in the District as well as the purchase of new school buses.

S. New Accounting Standards

Significant new accounting standards issued by the Governmental Accounting Standards Board (GASB) not yet implemented by the District include the following:

Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements – The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. GASB 94 will be implemented in fiscal year 2023 and the impact has not yet been determined.

Statement No. 96, Subscription-Based Information Technology Arrangements – This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-an intangible asset-and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. GASB 96 will be implemented in fiscal year 2023 and the impact has not yet been determined.

GASB Statement No. 100, Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62 - The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This Statement will become effective for reporting periods beginning after June 15, 2023, and the impact has not yet been determined.

GASB Statement No. 101, Compensated Absences - The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement will become effective for reporting periods beginning after December 15, 2023, and the impact has not yet been determined.

T. Prior Period Adjustment

During the current fiscal year, management determined that amounts previously reported in the custodial fund as due to student groups were not currently due and payable and were most appropriately reported as fiduciary net position. The resulting change of \$2,441,160 increased beginning fiduciary net position for the custodial fund.

HAYS CONSOLIDATED INDEPENDENT SCHOOL DISTRICT

NOTES TO REQUIRED BUDGETARY SCHEDULE

JUNE 30, 2022

Budgetary Information

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the National School Breakfast and Lunch Program Fund, which is included in the Special Revenue Funds.

The District is required to present the adopted and final amended budgeted revenue and expenditures for each of these funds. The District compares the final amended budget to actual revenue and expenditures. The General Fund Budget is presented at Exhibit G-1 and the National Breakfast and Lunch Program and Debt Service Funds are presented at Exhibit J-5 and J-6, respectively.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 20, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least 10 days' public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. The legal level of control for budgeted expenditures is the function level within the budgeted funds. Amendments to the budget are required prior to expending amounts greater than the budgeted amounts at the function level. Budgets are controlled at the departmental or campus level, the same level at which responsibility for operations is assigned. The budget was amended by the Board as needed throughout the year.
5. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. At June 30, 2022, there was \$988,687 in encumbrances that were provided for in the subsequent year's budget.

HAYS CONSOLIDATED INDEPENDENT SCHOOL DISTRICT**SCHEDULE OF THE DISTRICT'S PROPORTIONATE
SHARE OF THE NET PENSION LIABILITY
TEACHER RETIREMENT SYSTEM****FOR THE YEAR ENDED JUNE 30, 2022**

	Measurement Year Ended June 30,	
	2021	2020

STATISTICAL SECTION

THIS PAGE LEFT BLANK INTENTIONALLY

STATISTICAL SECTION

This part of the District's annual comprehensive financial report presents detailed information as a context for understanding the information in the financial statements, note disclosures, and required supplementary information. The statistical section includes 19 schedules that fall within the following categories:

<u>Contents</u>	<u>Page</u>
Financial Trend Data These schedules contain trend information on how the District's financial performance and well-being have changed over time.	76-85
Revenue Capacity Data These schedules contain information on the District's most significant local revenue source, the property tax.	86-90
Debt Capacity Data These schedules present information to help assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	91-94
Demographic and Economic Information These schedules offer demographic and economic indicators to help understand the environment within which the District's financial activities take place.	95-96
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the service the District provides and the activities it performs.	97-102

Sunfield MUD #3	39,550,000	100.00%	39,550,000
Travis County	1,054,720,000	0.01%	105,472
Travis County Healthcare District	82,490,000	0.01%	8,249
The District	532,810,000	100.00%	<u>532,810,000</u>
	Subtotal, overlapping debt		<u>1,107,359,309</u>
	Hays Consolidated Independent School District direct debt		<u>510,810,000</u>
	Total direct and overlapping debt		\$ <u>1,618,169,309</u>

Overlapping governments are those that coincide at least in part, with geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of Hays Consolidated Independent School District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into the account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Hays Consolidated Independent School District
Kyle, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hays Consolidated Independent School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Hays Consolidated Independent School District's basic financial statements, and have issued our report thereon dated November 14, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hays Consolidated Independent School District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hays Consolidated Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Hays Consolidated Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

OFFICE LOCATIONS

TEXAS | Waco | Temple | Hillsboro | Houston
NEW MEXICO | Albuquerque

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses and significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hays Consolidated Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

Board of Trustees of
Hays Consolidated Independent School District
Kyle, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Hays Consolidated Independent School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Hays Consolidated Independent School District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

OFFICE LOCATIONS

TEXAS | Waco | Temple | Hillsboro | Houston
NEW MEXICO | Albuquerque

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

JUNE 30, 2022

1. GENERAL

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Hays Consolidated Independent School District (the "District") under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, change in net position, or cash flows of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The expenditures reported on the Schedule are reported using the modified accrual basis of accounting, with the exception of the National School Lunch Program, the School Breakfast Program, the Food Distribution Program, and the Child and Adult Care Food Program. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become available and measurable, and expenditures in the accounting period in which the fund liability is incurred, if measurable. Expenditures in the National School Lunch Program, the School Breakfast Program, the Food Distribution Program, and the Child and Adult Care Food Program are not specifically attributable to this revenue source and are shown on the Schedule in an amount equal to revenue for balancing purposes only. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement.

3. PASS-THROUGH EXPENDITURES

None of the federal programs expended by the District were provided to subrecipients.

4. INDIRECT COSTS

The District has elected to not use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

5. RECONCILIATION OF FEDERAL REVENUES AND THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The following is the reconciliation of federal revenues and the Schedule of Expenditures of Federal Awards for the fiscal year:

Federal revenues on the Statement of Revenues, Expenditures and Changes in Fund Balance Governmental Funds (Exhibit C-3)	\$	34,476,318
School health and related services revenue	(4,364,720)
E-Rate	(<u>199,128</u>)
Federal expenditures on the Schedule of Expenditures of Federal Awards (Exhibit K-1)	\$	<u>29,912,470</u>
