Issues/Concerns/Ideas brought up

- Look into Austin/Del Valley and see data about accidents before vs after stickers applied
- Floater procedures for where to go after assignment is given (everyone needs to be on the same page)
- Propose at 5am and 1:30 pm, floaters need to check in at dispatch for assignment, if no assignment then they should sit and wait for one next to dispatch, if they do have assignment go to break room
- Address problems head on, before mass emails that bring down morale
- Possibility of 2nd safety coordinator to help carry Mrs Vicki's load since our district is growing so rapidly
- Insurance not covering "weight loss" medication even though it's for diabetes and A1C levels not just for weight loss

- Physicals not on the clock but waiting around for the doc to be ready
- Leads feel like working mules because of AFT's
- Dispatch doing customer service because of the way they speak to people
- Mechanics expected to drive outside of scheduled hours, if they're supposed to be off at 1:30 and they choose to take off, you get in trouble
- Getting in trouble for actually sitting and doing your seating charts/write ups. 30 minutes every few weeks to take care of it
